

# 2021-22 WINTER SNOW PLOWING ON REGIONAL TRAILS

Winter maintenance is performed on over 100 miles of the Regional Trail System generally from November 1<sup>st</sup> to April 15<sup>th</sup>. This is achieved through a partnership between Three Rivers Park District and local cities. Plowing response times will vary across the system and are dependent on local city plowing schedules and priorities. Please refer to the list below to find out which trails are maintained during the winter season.

For more information regarding plowing contact the Park District's Regional Trail System Manager at 763-559-6746.
